

Design Lead

New clients and continued company growth means that we are now looking for an experienced Design Lead to spearhead our digital design team.

Reporting to the Operations Director, you will work closely with colleagues to ensure that Aurion produces creative, multi-platform digital learning resources for our broad range of clients.

Responsibilities:

- Lead and coach the digital design team in the creation of creative, high impact multi-platform digital content that meets the very highest quality standards.
- Manage the overall design of a client solution, working with a design lead, instructional lead, technical lead and others to produce the project's design specification.
- Take ownership and quality assure the deliverables of the digital design team to ensure that the outputs meet the needs of the client and project specification.
- Oversee AV production throughout the company. This might involve working with the Procurement and Finance Director to commission and quality assure external AV teams; acting as producer/director on a project, working with an assigned Instructional Designer to script materials for an AV project or reviewing and quality assuring post production work.
- Contribute to new product development in line with the company's business plan.
- Drive innovation through the use of new digital content tools and technologies throughout the organisation.

Essential Criteria

- Experience of UI/UX design.
- 3rd Level Qualification in Design, Media, Business or IT.

- Minimum of 5 years' experience as a senior designer with team lead responsibility in the software or media industry.
- Excellent analytical, problem-solving and strategic thinking skills.
- Experience of multi-platform digital content design and implementation.
- Possess well-developed communication skills including the ability to deliver presentations using structure and style.
- Possess good commercial awareness and a sound understanding of project and business dynamics.
- Ability to work to tight deadlines and make sensible decisions under pressure taking a balanced view of client demands in tandem with agreed project scope.
- Creative and passionate about the design of visually rich digital learning content that works beautifully across multiple platforms.
- Passionate about developing your skills on an ongoing basis to ensure that you keep informed about developments in digital media.
- Willing to travel to client sites throughout Ireland and UK.

Desirable:

- Experience in the educational software industry.
- Have experience of mobile app creation and gamification.

Location: Belfast

Salary: Negotiable, depending upon experience.

We offer continuous professional development opportunities and a range of other benefits including a contributory pension scheme and health plan.
